### **DETAILED ACTION**

1. The Applicants' amendment filed on May 27, 2005 was received. Claims 1-20 are deleted. Claims 21-47 are added. Now, Claims 21-47 are pending.
2. Claim rejection(s) under 35 USC 102 and 103 in the previous Office Action (Paper No. 0105) is/are removed.
3. The indicated allowability of Claims 12-13 (now Claims 46-47) is withdrawn in view of the newly discovered reference(s) to Metzemacher (US 5 139 875). Rejections based on the newly cited reference(s) follow.

### ***Claim Objections***

4. Claim 32 is objected to because of the following informalities:  
In Claim 32 (line 1), after "composition", should there be -- of claim 21 --?  
Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1712

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 46-47 are rejected under 35 U.S.C. 102(b) as being anticipated by Metzemacher (US 5 139 875).

For Claim 46, Metzemacher discloses a composition comprising a polyolefin, a block copolymer such as SBS, SIS, SEBS, etc., a polysiloxane and a titanate or a zirconate. (col. 1, line 51 to col. 4, line 5 and Examples) The polysiloxane can be used in an amount relative to relative to the filler as described in col. 4, lines 1-5. The amount of the filler can be further exemplified in Examples. Therefore, Metzemacher does disclose the amount of the polysiloxane falling within the claimed range of the instant claim. The amount of the polysiloxane can be further exemplified in Examples. For Claim 47, the amount of the titanate or zirconate with respect to that of the filler is described in col. 3, lines 19-44. The amount of the filler can be further exemplified in Examples. Therefore, Metzemacher does disclose the amount of the polysiloxane falling within the claimed range of the instant claim. The amount of the titanate or zirconate can be further exemplified in Examples.

*Allowable Subject Matter*

7. Claims 21-31 and 33-45 are allowed.

8. The following is an examiner's statement of reasons for allowance:

The present claims are allowable for at least the following reason(s) over the closest references: Maycock (US 4 859 759), Nohr (US 5 413 655) and Metzemacher.

None of these references teaches or fairly suggests the composition or the method of using the composition set forth in the instant claims.

9. Claim 32 would be allowable if rewritten to overcome the claim objection, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The patentability of the instant claim is described in the previous paragraph.
